Public Notice.

MAJOR ANDREW SMALL, begs leave to inform the citizens of the town of Abbeville and county, that at the solicitation of numerous friends, acquaintances and the public generally, he has been induced again to resume his late occupation as an Auctioneer and Commission Merchant, he would only here just remark that his ability as an Auctioneer is well known to the community both in town and country, having acted in that capacity these last twenty years. All those desiring his services as such would do well to give him a call at his own residence, where he shall be happy to see them and where advertisements can be written out and all other preliminaries with regard to public sales arranged and adjusted. Orders can be left with Mr. W. T. Penney, at his Drug Store, or at the Judge of Probate's office in the Court House. All consignments of property for sale shall have his earnest attention, and immediately after disposal of same settlements will be made with promptness and dispatch. He is acting as Agent still for those wonderful medicines the Great Vegetable Blood Purifiers that have been doing so much good to humors both in town and country. These great cures of which due notice will be given in our local papers next month when the sale commences. All communications promptly attended to.

Etiwan Fertilizers of the Time

White Bros., THE SOLE AGENTS

FOR the sale of the above well-known and highly valuable Fertilizers have now on hand a full supply and will be glad to furnish such of their customers as intend using them next year. Every one remembers how difficult it was to get Guanos last Spring. Many farmers lost several days of valuable time in coming to town with their teams, and not a few, after several ineffectual trips, failed at last in securing Fertilizers. To obviate any further trouble of this kind, and to enable planters to take their Fertilizers home when they are marketing their Cotton, an early supply has been ordered. No one can fail to see the advantage to be derived by the saving of time in the Spring, when every moment is valuable to the farmer. The standard of the Etiwan Guanos remains the same it has always been. No Fertilizers manufactured in this country have a higher standing, or are so generally used. If the acreage in Cotton is to be reduced another year, (and all will admit that there is too much Cotton planted) the greater will be the need for Fertilizers. Plant less, but enrich your lands more, is the true policy.

The Etiwan Dissolved Bone Manufactured for composting with cotton seed and stable manure is commended with great confidence to the farmer. It has given universal satisfaction, and all who have used it want it again. Send in your orders early. The terms are as usual. If the purchase should be delayed until Spring, Money is made by saving valuable time.

PACIFIC GUANO COMPANY, (CAPITAL \$100,000.)

Soluble Pacific Guano. THIS GUANO is now so well known in all the Southern States for its remarkable effects as an agency for increasing the products of labor, as not to require special recommendation from us. Its use for eight years past has established its character for reliable excellence. The large fixed capital invested by the Company in this trade affords the surest guarantee of the continued excellence of this Guano. The supplies put into market this season are, as heretofore, prepared under the superintendence of Dr. St. Julian Ravenel, Chemist of the Company, at Charleston, S. C. Hence planters may rest assured that its quality and composition is precisely the same as that heretofore sold.
